

# Contents

1	General introduction	11
1.1	Economic policy . . . . .	18
1.2	Politics . . . . .	22
1.3	Concluding remarks . . . . .	27
I	Tools of political economics	29
2	Preferences and institutions	35
2.1	A general policy problem . . . . .	36
2.2	Restricting preferences . . . . .	37
2.2.1	One-dimensional policy . . . . .	38
2.2.2	Multidimensional policy, unidimensional conflict . . . . .	42
2.3	Restricting institutions . . . . .	46
2.3.1	Non existence and its implications . . . . .	47
2.3.2	Modelling institutions of policy choice . . . . .	49
2.4	Discussion . . . . .	59
2.5	Notes on the literature . . . . .	60
2.6	Problems . . . . .	60
3	Electoral Competition	67
3.1	A simple model of public finance . . . . .	68
3.2	Downsian electoral competition . . . . .	70
3.3	Median-voter equilibria . . . . .	72
3.4	Probabilistic voting . . . . .	73
3.5	Lobbying . . . . .	79
3.6	Discussion . . . . .	84
3.7	Notes on the literature . . . . .	85

3.8	Problems . . . . .	86
4	Agency . . . . .	91
4.1	Efficient electoral competition . . . . .	92
4.2	Inefficient electoral competition . . . . .	94
4.3	Enforceability, verifiability and observability . . . . .	97
4.3.1	Enforceable and verifiable promises . . . . .	98
4.3.2	Enforceable non-verifiable promises . . . . .	99
4.3.3	Non-enforceable promises . . . . .	100
4.4	Electoral accountability . . . . .	101
4.4.1	Rents from incumbent power . . . . .	101
4.4.2	Rents from asymmetric information . . . . .	103
4.5	Career concerns . . . . .	106
4.5.1	A simplified two-period model . . . . .	106
4.5.2	Electoral Cycles . . . . .	110
4.6	Discussion . . . . .	113
4.7	Notes on the literature . . . . .	115
4.8	Problems . . . . .	116
5	Partisan politicians . . . . .	123
5.1	Policy convergence . . . . .	124
5.2	Policy divergence . . . . .	126
5.3	Endogenous candidates . . . . .	128
5.4	Legislative bargaining . . . . .	132
5.5	Discussion . . . . .	136
5.6	Notes on the literature . . . . .	137
5.7	Problems . . . . .	138
II	Redistributive politics . . . . .	145
6	General-interest politics . . . . .	149
6.1	General transfers . . . . .	151
6.1.1	A simple model of redistribution . . . . .	151
6.1.2	Equilibrium redistribution . . . . .	153
6.1.3	Implications and evidence . . . . .	154
6.2	Pensions . . . . .	157
6.2.1	A simple model of pensions . . . . .	158

6.2.2	Equilibrium pensions . . . . .	161
6.2.3	Evidence and extensions . . . . .	164
6.3	Regional transfers . . . . .	167
6.3.1	A simple model of regional redistribution . . . . .	168
6.3.2	Integration or not? . . . . .	170
6.3.3	The threat of secession . . . . .	174
6.4	Unemployment insurance . . . . .	176
6.4.1	A simple model of unemployment insurance . . . . .	177
6.4.2	Equilibrium unemployment insurance . . . . .	180
6.4.3	Equilibrium labor market regulations . . . . .	182
6.5	Discussion . . . . .	187
6.6	Notes on the literature . . . . .	189
6.7	Problems . . . . .	193
7	Special-interest politics . . . . .	199
7.1	A model of local public goods . . . . .	202
7.1.1	A normative benchmark . . . . .	202
7.1.2	The basic common-pool problem . . . . .	204
7.2	Legislative bargaining . . . . .	205
7.2.1	A simple legislative bargaining model . . . . .	206
7.2.2	Political equilibrium . . . . .	207
7.2.3	Extensions . . . . .	210
7.3	Lobbying . . . . .	214
7.3.1	A simple lobbying model . . . . .	215
7.3.2	Political equilibrium . . . . .	215
7.4	Electoral competition . . . . .	218
7.4.1	A simple model of electoral competition . . . . .	219
7.4.2	Political equilibrium . . . . .	220
7.5	Interactions . . . . .	223
7.5.1	Lobbying and elections . . . . .	224
7.5.2	Elections and legislative bargaining . . . . .	229
7.5.3	Lobbying and legislative bargaining . . . . .	232
7.6	Discussion . . . . .	236
7.7	Notes on the literature . . . . .	238
7.8	Problems . . . . .	241

III	Comparative politics	247
8	Electoral rules and electoral competition	253
8.1	The economic model . . . . .	255
8.2	The politics of electoral competition . . . . .	256
8.3	Single district (proportional) elections . . . . .	259
8.4	Multiple district (majoritarian) elections . . . . .	261
8.5	Broad vs. targeted redistribution . . . . .	264
8.6	Discussion . . . . .	267
8.7	Notes on the literature . . . . .	270
8.8	Problems . . . . .	271
9	Institutions and accountability	277
9.1	Electoral rules and career concerns . . . . .	279
9.1.1	Local vs. national elections . . . . .	281
9.1.2	Majoritarian vs. proportional elections . . . . .	284
9.1.3	Discussion . . . . .	286
9.2	Electoral rules and accountability . . . . .	288
9.2.1	Single-district elections . . . . .	290
9.2.2	Multiple district elections . . . . .	292
9.2.3	Discussion . . . . .	293
9.3	Separation of powers . . . . .	294
9.3.1	Checks and balances . . . . .	295
9.3.2	Revelation of information . . . . .	298
9.3.3	Discussion . . . . .	299
9.4	Notes on the literature . . . . .	301
9.5	Problems . . . . .	302
10	Political regimes	307
10.1	Policy choices in a simple legislature . . . . .	310
10.2	Presidential-Congressional regimes . . . . .	316
10.3	Parliamentary regimes . . . . .	320
10.4	Discussion . . . . .	324
10.5	Notes on the literature . . . . .	326
10.6	Problems . . . . .	328

IV	Dynamic politics	331
11	Dynamic policy problems	337
11.1	Analyzing dynamic policy games . . . . .	339
11.1.1	Economic equilibrium . . . . .	339
11.1.2	Equilibrium policy rules . . . . .	342
11.1.3	Discussion . . . . .	346
11.2	Examples . . . . .	348
11.2.1	Example 1: Public debt repayment . . . . .	348
11.2.2	Example 2: Inflation and labor taxation . . . . .	352
11.2.3	Example 3: Public debt management . . . . .	358
11.3	Discussion . . . . .	362
11.4	Notes on the literature . . . . .	364
11.5	Problems . . . . .	365
12	Capital taxation	371
12.1	A simple model of dynamic taxation . . . . .	373
12.2	Credibility . . . . .	374
12.2.1	The ex ante optimal policy . . . . .	375
12.2.2	Equilibrium without commitment . . . . .	376
12.2.3	Multiple equilibria and confidence crises . . . . .	379
12.2.4	Enforcement of better outcomes . . . . .	380
12.3	Politics . . . . .	384
12.3.1	Capital vs. labor . . . . .	384
12.3.2	Equilibrium taxation with office-seeking candidates . . . . .	385
12.3.3	Equilibrium taxation with citizen candidates . . . . .	388
12.4	Tax competition . . . . .	393
12.4.1	Capital mobility . . . . .	394
12.4.2	Cooperation versus non-cooperation . . . . .	395
12.4.3	Credibility and cooperation . . . . .	398
12.4.4	Domestic politics . . . . .	399
12.5	Discussion . . . . .	404
12.6	Notes on the literature . . . . .	407
12.7	Problems . . . . .	409
13	Public debt	415
13.1	A simple model of public debt . . . . .	417
13.2	The dynamic common-pool problem . . . . .	419

13.3	Political instability . . . . .	422
13.3.1	Disagreement over the composition of spending . . . . .	423
13.3.2	Disagreement over the size of spending . . . . .	427
13.3.3	Endogenous election outcomes . . . . .	429
13.3.4	Discussion . . . . .	432
13.4	Delayed stabilizations . . . . .	433
13.5	Debt and intergenerational politics . . . . .	437
13.6	Discussion . . . . .	439
13.7	Notes on the literature . . . . .	441
13.8	Problems . . . . .	442
14	Growth . . . . .	447
14.1	Inequality and growth . . . . .	449
14.2	Political instability and growth . . . . .	452
14.3	Special interests, rents and growth . . . . .	455
14.4	Other political determinants of growth . . . . .	460
14.5	Discussion . . . . .	461
14.6	Notes on the literature . . . . .	463
14.7	Problems . . . . .	464
V	Monetary politics . . . . .	471
15	Credibility of monetary policy . . . . .	477
15.1	A simple model of monetary policy . . . . .	478
15.2	Ex-ante optimality . . . . .	480
15.3	Credibility . . . . .	482
15.4	Reputation . . . . .	487
15.5	Dynamics . . . . .	490
15.6	Notes on the literature . . . . .	495
15.7	Problems . . . . .	497
16	Electoral cycles . . . . .	503
16.1	Career concerns and political business cycles . . . . .	504
16.1.1	Moral Hazard . . . . .	504
16.1.2	Adverse Selection . . . . .	509
16.1.3	Discussion . . . . .	511
16.2	Partisan cycles . . . . .	511

16.3	Notes on the Literature . . . . .	517
16.4	Problems . . . . .	518
17	Institutions and incentives	523
17.1	Simple rules and escape clauses . . . . .	525
17.1.1	Simple rules . . . . .	526
17.1.2	Escape clauses . . . . .	527
17.2	Central bank independence . . . . .	531
17.2.1	The conservative central banker . . . . .	531
17.2.2	Discussion . . . . .	533
17.3	Inflation targets and contracts . . . . .	536
17.3.1	The optimal inflation contract . . . . .	536
17.3.2	Inflation targets . . . . .	538
17.3.3	Simple contracts . . . . .	540
17.3.4	Discussion . . . . .	541
17.4	Notes on the literature . . . . .	543
17.5	Problems . . . . .	545
18	International policy coordination	549
18.1	A stylized model . . . . .	550
18.2	Incentives . . . . .	553
18.2.1	Commitment and cooperation . . . . .	553
18.2.2	Discretion and non-cooperation . . . . .	555
18.2.3	Discretion and cooperation . . . . .	557
18.3	Institutions . . . . .	559
18.3.1	Optimal linear inflation contracts . . . . .	560
18.3.2	Optimal targeting . . . . .	561
18.3.3	International monetary arrangements . . . . .	563
18.4	Discussion . . . . .	566
18.5	Notes on the literature . . . . .	567
18.6	Problems . . . . .	569
19	What next?	573
19.1	Some positive questions . . . . .	574
19.2	Analytical issues . . . . .	578
19.3	Concluding remarks . . . . .	584
